

## Terms and conditions for of the Academic License Offering for the Scientific Network

PTV supports academic research and teaching by offering a software package at attractive conditions under the name Academic License. This document defines terms and conditions for Academic Licenses, effective October 1, 2017.

The Academic License contains the following four products in the stated configurations:

- ▶ PTV Visum
  - ▶ License size 2: 1,000 zones / 30,000 time profiles (for public transport lines)
  - ▶ Additional modules: junction editor, ICA, SBA, Vissig, Matrix estimation, Shared Mobility, Timetable management, Onboard survey, Line costing and revenue calculation, Demand modeling (Visem), Safety add-on, Schematic Line Diagram, MS SQL interface
- ▶ PTV Vissim & PTV Viswalk
  - ▶ License size 1: geographic extent max 10 km x 10 km and 20 signalized intersections, / max. number of pedestrians simultaneously in system 10,000
  - ▶ Additional modules: VAP / VisVAP, Vissig, Meso, 3D package, Driving Simulator interface, PTV Viswalk, API, LISA+ OMTC interface, SCATS interface, SCOOT interface, TRENDS interface
- ▶ PTV Vistro

The license holder must work for a non-commercial research facility.

The Academic License contains 100 licenses for simultaneous use within one local area network of one academic institution to which the license holder belongs. It is delivered on one network dongle.

The price of a subscription of the Academic License is 5000 Euro for three (3) years. Upgrades within this period are free.

The Academic License may only be used for academic purposes, including teaching, computer labs, thesis work. Any use on consulting projects, competing against holders of commercial licenses of the software is excluded.

In order to prevent illegitimate use of the licenses PTV reserves the right to monitor the use of the software, making use of the built-in user tracking features. During the use of the software selected aggregate statistics about the use of features and properties of the models will be sent to PTV. For this reason use of the software requires Internet access. By purchasing an Academic License the license holder agrees that data is transferred to PTV and that the data will include an identification of the license holder. This personalized information will be stored on PTV servers. It will be used exclusively for following up with the license holder in case evidence of illegitimate use is detected. It will never be shared with third parties. Usage information may also be used for product improvement, just like information from users who voluntarily join PTV's user tracking programme. The license holder will take appropriate action to make individual users of the software aware of usage monitoring.
