

How does IN tIME Express Logistik guarantee the availability of its 3,800 vehicles in a maximum of 60 minutes?

Learn how **PTV Map&Guide** optimises your
route planning and cost calculation.

About IN tIME Express Logistik

IN tIME Express Logistik is based in Hannover, Germany, and is one of the European market leaders in B2B courier service. From documents and spare parts to bulky goods and medical samples, they need to deliver all types of goods efficiently and reliably. To meet the high expectations, the company has been relying on PTV Map & Guide for over 20 years.

How other customers use PTV Map&Guide:

Fully utilises their trucks and avoid unproductive empty runs.

Calculates freight and toll costs quickly and accurately.

Compares different journeys and scenarios based on costs incurred.

PTV Map&Guide optimises truck routes and calculates all transport costs.

From time-saving in planning and execution to profit increase, our 55,000 users worldwide are proof that PTV Map&Guide is the best route planner in the industry.

Functions

Precise transport cost calculation, pricing and break-even analysis

Calculate your exact transport costs with our precise and reliable transport cost calculator built into the software. On top of that, PTV Map&Guide also offers break-even analysis so you can maximise your profit margin and create cost-effective quotations within minutes.

Toll cost calculator

Our software saves you time and effort from doing manual toll cost calculations and makes sure it is always accurate. Calculate all toll road charges in Europe; including bridges, tunnels and cities, as well as HGV levy with PTV Map&Guide.

Route planning and optimisation

Plan perfectly-tailored routes for your vehicles. It automatically avoids all roads unsuitable for your vehicle by setting the vehicle's parameters and truck-related attributes beforehand. With PTV Map&Guide, you can manage and optimise each sequence of your stop which takes into account all relevant vehicle and transport data.

ETA notification service & guided navigation

You can take advantage of the Estimated Time of Arrival service and report for your transports and service deliveries. Planned routes can be sent to drivers from PTV Map&Guide to the free PTV Driver App. Goods recipients are also proactively informed about status changes and delays, giving your logistics services a little extra.

Benefits

Keep track of all your transport costs

Whether you need to calculate exact toll costs, mileage, delivery types, or even personnel costs, our transport cost calculator contains a comprehensive range of route based on trucks/HGV attributes and other vehicle-related data so you can avoid hidden costs.

Stress-free route planner

With our state-of-the-art truck dispatching and data management software, you always have an overview of all the logistical processes. From managing customer and route address data to managing drivers and fleets, PTV Map&Guide helps you automate your business and thus ease your logistics processes.

Specially made for drivers

PTV Map&Guide includes relevant features such as driver's drive and rest times, truck navigation, precise distance calculations, hazardous goods restrictions, and official toll costs to eliminate unnecessary road detours and delays. The software also offers a Europe-wide truck stops and parking database along the motorways, including a reservation feature.

Make sound business decisions

Understand how delivery costs affect your profit by knowing the actual cost per trip through advance calculation. All you have to do is set the profit margin, and PTV Map&Guide calculates the quotation price and suggests a realistic and economic sale price per order.

About PTV Group

PTV Group takes a holistic approach that integrates all aspects of traffic, transport and logistics to create and promote sustainable mobility. Recognised as global market leader, PTV develops intelligent software solutions for transport logistics, traffic planning and traffic management.

Thus cities, companies and people save time and money, enhance road safety and minimize the impact on the environment. Based on its unique expertise in every facet of mobility, PTV ensures that people and goods arrive at their destinations safe and sound, and on time.
